January 6, 2021

**Board of Supervisors
East 547
Community Development District**

Dear Board Members:

The regular meeting of the Board of Supervisors of the **East 547 Community Development District** will be held **Thursday, January 13, 2022 at 11:00 AM** at the **Offices of Highland Homes, 3020 S. Florida Ave., Suite 101, Lakeland, FL 33803.**

Zoom Video Link: <https://us06web.zoom.us/j/88683646757>

Call-In Number: 1-646-876-9923

Meeting ID: 886 8364 6757

Following is the advance agenda for the meeting:

Board of Supervisors Meeting

1. Roll Call
2. Public Comment Period (¹Speakers will fill out a card and submit it to the District Manager prior to the beginning of the meeting)
3. Approval of Minutes of the December 9, 2021 Audit Committee Meeting and Board of Supervisors Meeting
4. Review and Ranking of Proposals Received for Engineering Services
5. Staff Reports
 - A. Attorney
 - B. Engineer
 - C. District Manager's Report
 - i. Check Register
 - ii. Balance Sheet & Income Statement
 - iii. Ratification of Series 2021 (AA1) Requisitions #30 to #34
6. Other Business
7. Supervisors Requests and Audience Comments
8. Adjournment

¹ Comments will be limited to three (3) minutes

MINUTES

**MINUTES OF MEETING
EAST 547
COMMUNITY DEVELOPMENT DISTRICT**

The Audit Committee meeting of the East 547 Community Development District was held Thursday, **December 9, 2021** at 11:00 a.m. at the Offices of Highland Homes, 3020 S. Florida Ave., Suite 101, Lakeland, Florida.

Present and constituting a quorum:

Brian Walsh
Milton Andrade
Jeff Shenefield

Also present were:

Jill Burns	GMS
Roy Van Wyk <i>via Zoom</i>	KE Law Group
Meredith Hammock <i>via Zoom</i>	KE Law Group
Margie Lloyd <i>via Zoom</i>	Dewberry

FIRST ORDER OF BUSINESS

Roll Call

Ms. Burns called the meeting to order and called the roll. Three Board members were present constituting a quorum.

SECOND ORDER OF BUSINESS

Public Comment Period

Ms. Burns noted that there were no members of the public present for the meeting.

THIRD ORDER OF BUSINESS

Review of Proposals and Tally of Audit Committee Members Rankings

- A. CRI**
- B. Grau & Associates**
- C. McDirmit Davis**

Ms. Burns noted that they had received three proposals as listed above and all of the proposals were provided in the agenda package. The Board decided to rank them together and talked through the proposals. She also stated that they have worked with all of the firms in the past but a majority of CDDs that they manage have worked with Grau & Associates. She noted that their accounting department has reported that Grau is a little bit easier to work with because they

tend to start a little bit earlier. Pricewise they are leaning more towards Grau & Associates or McDirmit Davis. It was requested to see if staff could get Grau to hold their price as opposed to increasing every year. Ms. Burns said that they can ask them. The Board asked staff to negotiate and will authorize up to \$21,500. Grau will be ranked first, McDirmit Davis will be ranked second, and CRI third. If Grau will not come down in price, the contract will be awarded to McDirmit Davis.

On MOTION by Mr. Walsh, seconded by Mr. Andrade, with all in favor, Ranking Grau & Associates #1, McDirmit Davis #2, and CRI #3 and Authorizing the District Manager to Negotiate the Price of Not to Exceed \$21,500 for the Five-Year Audit, was approved.
--

FOURTH ORDER OF BUSINESS**Adjournment**

Ms. Burns adjourned the meeting.

On MOTION by Mr. Walsh, seconded by Mr. Shenefield, with all in favor, the meeting was adjourned.

Secretary/Assistant Secretary

Chairman/Vice Chairman

**MINUTES OF MEETING
EAST 547
COMMUNITY DEVELOPMENT DISTRICT**

The regular meeting of the Board of Supervisors of the East 547 Community Development District was held Thursday, **December 9, 2021** at 11:09 a.m. at the Offices of Highland Homes, 3020 S. Florida Ave., Suite 101, Lakeland, Florida.

Present and constituting a quorum:

Brian Walsh	Chairman
Milton Andrade	Vice Chairman
Jeff Shenefield	Assistant Secretary

Also present were:

Jill Burns	District Manager, GMS
Roy Van Wyk <i>via Zoom</i>	KE Law Group
Meredith Hammock <i>via Zoom</i>	KE Law Group
Margie Lloyd <i>via Zoom</i>	Dewberry

FIRST ORDER OF BUSINESS

Roll Call

Ms. Burns called the meeting to order and called the roll. Three Board members were present constituting a quorum.

SECOND ORDER OF BUSINESS

Public Comment Period

Ms. Burns noted that there were no members of the public present for the meeting.

THIRD ORDER OF BUSINESS

**Approval of the Minutes of the October 14,
2021 Board of Supervisors Meeting**

Ms. Burns presented the minutes of the October 14, 2021 Board of Supervisors meeting and asked for any comments, questions, or corrections. The Board had no changes.

On MOTION by Mr. Walsh, seconded by Mr. Andrade, with all in favor, the Minutes of the October 14, 2021 Board of Supervisors Meeting, were approved.
--

FOURTH ORDER OF BUSINESS**Review and Ranking of Proposals
Received for Engineering Services**

Ms. Burns noted that they had received one proposal from Dewberry Engineer and asked for any questions the Board may have. Their being none, she asked for a motion of approval to rank Dewberry first and authorize staff to send a notice of intent to award and then authorize counsel to draft the agreement. Mr. Andrade mentioned that he had a couple of questions for the engineer regarding site work before awarding. They decided to table this motion until the next meeting.

FIFTH ORDER OF BUSINESS**Consideration of 2022 Data Sharing and
Usage Agreement with Polk County
Property Appraiser – ADDED**

Ms. Burns noted that this is an annual agreement that they require regarding disclosing of exempt parcels and for the GMS office not to disclose exempt parcels that would be deemed confidential.

On MOTION by Mr. Walsh, seconded by Mr. Shenefield, with all in favor, the 2022 Data Sharing and Usage Agreement with Polk County Property Appraiser, was approved.

SIXTH ORDER OF BUSINESS**Consideration of Contract Agreement
with Polk County Property Appraiser –
ADDED**

Ms. Burns noted this is an annual agreement that they require to allow the District to gather the parcels so they may collect on the tax roll when they are ready to do so.

On MOTION by Mr. Walsh, seconded by Mr. Shenefield, with all in favor, the Contract Agreement with Polk County Property Appraiser, was approved.

SEVENTH ORDER OF BUSINESS**Staff Reports****A. Attorney**

Mr. Van Wyk had nothing further to report.

B. Engineer

Ms. Lloyd had nothing further for the Board.

C. District Manager's Report**i. Check Register**

Ms. Burns presented the check register from October 9th through December 2nd totaling \$12,888.07 and asked for a motion to approve.

On MOTION by Mr. Walsh, seconded by Mr. Shenefield, with all in favor, the Check Register totaling \$12,888.07, was approved.

ii. Balance Sheet & Income Statement

Ms. Burns stated that the financial statements through September 30th were included in the packet for review, adding that there was no action necessary.

iii. Ratification of Summary of Series 2021 (AA1) Requisitions #19 to #29

Ms. Burns stated that these have already been approved and is just looking for ratification from the Board.

On MOTION by Mr. Walsh, seconded by Mr. Andrade, with all in favor Series 2021 (AA1) Requisitions #19 to #29, were ratified.

EIGHTH ORDER OF BUSINESS**Other Business**

There being none, the next item followed.

NINTH ORDER OF BUSINESS**Supervisors Requests and Audience Comments**

There being none, the next item followed.

TENTH ORDER OF BUSINESS**Adjournment**

Ms. Burns adjourned the meeting.

On MOTION by Mr. Walsh, seconded by Mr. Shenefield, with all in favor, the meeting was adjourned.

East 547 Community Development District
Attn: Governmental Management Services - Central Florida, LLC
c/o Jill Burns (District Manager's Office)
219 E. Livingston Street
Orlando, Florida 32801

RE: Request for Qualifications (RFQ) for Engineering Services for the East 547 Community Development District

Dear Ms. Burns,

Our firm has put together a strong, focused, and experienced team to deliver each task under this contract efficiently and effectively. Dewberry has served as the District Engineer for over 25 Community Development Districts (CDDs) in Florida, which allows us to provide the East 547 with the unique experience, familiarity, and understanding of the type of services that will be requested.

Dewberry's Florida operation is backed by the resources and stability of a national firm and specializes in site/civil, environmental, utility infrastructure, transportation engineering, surveying, and land development services. Dewberry has 15 office locations and over 300 employees in Florida, allowing us to bring expertise, qualifications, and resources to clients throughout the state. Dewberry's depth of professional resources and expertise touches every aspect of the District's ongoing needs. From 200 acres to close to 10,000 acres, we offer the District a solid team built on past experience to efficiently address the associated scope of work, as well as the added depth of services involving engineering, environmental, surveying, and construction management for a full service approach.

We have extensive knowledge and understanding of the East 547 and are able to provide the specific assignments noted in your RFQ. We understand the needs of the District because we are currently the Interim District Engineers.

Dewberry currently has no conflicts with any homebuilder within East 547. Although our past history with numerous CDDs speaks for itself, we are committed to proving ourselves as a valuable partner to provide engineering services to East 547.

It would be our privilege to serve as the District Engineer. We appreciate this opportunity to provide information about our capabilities and welcome the possibility to personally expand upon them.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rey Malave", with a long horizontal flourish extending to the right.

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Rey Malavé has 41 years of experience in civil engineering design, and a diversified background in the design and permitting of infrastructure systems including airports, golf courses, commercial developments, and industrial developments, as well as being District Engineer for over 25 CDD's and Improvement Districts. His areas of expertise include stormwater management systems, water distribution systems and wastewater facilities, effluent disposal systems, sanitary sewage collection systems, mass grading of sites, and master community development. He also has experience in the design, permitting, and management of construction administrative efforts for very large developments. Additionally, he is experienced in the preparation of paving and grading plans for roadways and parking facilities. He has managed and participated in the planning and design of nine major Developments of Regional Impact (DRIs) as well as many large and complex projects ranging from 1,600 AC to over 4,500 AC. He has extensive knowledge of permitting requirements and has developed a rapport with permitting agencies including the Florida Department of Environmental Protection (FDEP), Florida Department of Transportation (FDOT), Florida Water Management Districts, and other local agencies.

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT
(Complete one Section E for each key person.)

12. NAME Joe Keezel, PE	13. ROLE IN THIS CONTRACT Senior Roadway Engineer	14. YEARS EXPERIENCE	
		a. TOTAL 25	b. WITH CURRENT FIRM 5
15. FIRM NAME AND LOCATION (City and State) Dewberry Engineers Inc. (Orlando, FL)			
16. EDUCATION (Degree and Specialization) BS/Environmental Engineering		17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline) FL Professional Engineer #57501	
18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)			

Joe Keezel has more than 25 years of experience designing major transportation systems and thoroughfares, working primarily on FDOT projects. He has managed several major highway projects, including a capacity project that widened a rural four-lane state highway to an urban six-lane section; replaced twin bridges; and updated drainage, signing, pavement markings, and signals. He was project manager for two districtwide contracts and prepared construction documents for more than 10 resurfacing, restoration, and rehabilitation projects ranging from two-lane rural to multi-lane urban. Joe also prepared several designs with limited survey using as-built plans, right-of-way (ROW) maps and SLD's, as well as prepared several projects with SMART plans and letter sets, all of which have been constructed with no claims.

19. RELEVANT PROJECTS

(1) TITLE AND LOCATION (City and State)		(2) YEAR COMPLETED	
a.	FDOT District Five, Continuing Engineering Services – Roadway Design (Multiple Counties, FL)	PROFESSIONAL SERVICES 2020	CONSTRUCTION (If applicable) Ongoing
		<input checked="" type="checkbox"/> Check if project performed with current firm	
Project Manager. Through our continuing services contract with District Five, Dewberry's task work orders included intersection improvements, resurfacing, lighting, signalization, and all tasks associated with highway design projects. Our traffic design services included signing design, pavement marking design, signal warrant analysis, signalization design, lighting justification, lighting design, and traffic studies. Joe served as Project Manager for the following projects: <ul style="list-style-type: none"> • State Road (SR) A1A at SR 520 Intersection Improvements, Brevard County, FL – This project improved the intersection for pedestrians and northbound left turning motorists by removing the free flow right turn lanes, realigning the east approach, and extending the northbound dual left turn lanes at the intersection of SR A1A and SR 520 in accordance with PPM Vol I Chapter 25. Also included in the project was the extension of the existing northbound left turn lane at the intersection of SR A1A and Canaveral Plaza Boulevard (Marion Lane). • SR 5 at Matanzas Woods Parkway, Flagler County, FL – This project involved the design of a multi-lane roundabout at the intersection of SR 5 (US 1) and Matanzas Woods Parkway. The project also included updating pedestrian features at the intersection. • Dallas Pond Re-Design, Marion County, FL – This project was to re-design the existing pond that was out of compliance for water quality treatment. Also included in the project was the extension of the outfall and acquisition of drainage easements for future maintenance of the complete drainage system. • SR 472, Volusia County, FL – This project rehabilitated the asphalt pavement to extend the longevity of the roadway. The intent of the project was to mill and resurface the roadway, including necessary roadside improvements, in accordance with PPM Vol I Chapter 25. The project is located in Volusia County on SR 472 from MP 0.376 to 2.931. The limits of the project included the SR 15 interchange ramps. 			
b.	CFX, General Engineering Consultant (Multiple Counties, FL)	PROFESSIONAL SERVICES Ongoing	CONSTRUCTION (If applicable) N/A
		<input checked="" type="checkbox"/> Check if project performed with current firm	
Senior Roadway Engineer. Dewberry currently serves as a general engineering consultant to the CFX. In order to support the delivery of CFX's \$2.5 billion, five-year work plan, the scope of services that Dewberry is performing as the general engineering consultant are categorized into seven tasks: bond financing support, engineering/design support, planning support, maintenance program support, general planning, work plan support, and multimodal/transit support.			
c.	FDOT District One, I-4 Beyond the Ultimate, Segment 5 (Polk County, FL)	PROFESSIONAL SERVICES Ongoing	CONSTRUCTION (If applicable) Ongoing
		<input checked="" type="checkbox"/> Check if project performed with current firm	
Lead Roadway Engineer. This segment is a 4.5-mile section from West of SR 25/US 27 to west of County Road (CR) 532 (Polk/Osceola County Line) in Polk County, including the US 27 Interchange. The proposed I-4/US 27 interchange is a full service partial cloverleaf interchange with loop ramps in the northwest and southeast quadrants. Eleven new bridges, substantial modifications to the ramp terminal intersections, and improvements along US 27 are proposed with this project.			

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT
(Complete one Section E for each key person.)

12. NAME Marybeth Morin, PE	13. ROLE IN THIS CONTRACT Senior Structural Engineer	14. YEARS EXPERIENCE a. TOTAL 25 b. WITH CURRENT FIRM 23	
15. FIRM NAME AND LOCATION (City and State) Dewberry Engineers Inc. (Orlando, FL)			
16. EDUCATION (Degree and Specialization) BS/Civil Engineering		17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline) FL Professional Engineer #57547	
18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)			

Marybeth Morin has 25 years of experience in structural design of transportation structures. She is responsible for the design and plans production of projects from the preliminary stages to final design. These projects include minor grade separations, water crossings, and interchanges. She has experience in AASHTO and Florida I-Beam girders, precast-prestressed slab units and steel I-girders. She also has experience in alternatives development, design-build work, and miscellaneous structures. Miscellaneous structures include sign structure, mast arm, noise, buffer and retaining wall, box culvert, and strain pole foundation design. Marybeth is responsible for project design, coordination, and plans production.

19. RELEVANT PROJECTS			
a.	(1) TITLE AND LOCATION (City and State) Live Oak Lake CDD (Twin Lakes Development) (Osceola County, FL)	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2019 CONSTRUCTION (If applicable) N/A	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm		
	Senior Structural Engineer. Live Oak Lake CDD is a multi-phased, active adult community consisting of residential units, green open space tracts with community facilities, and a community amenity center. Marybeth was responsible for the design and overseeing the construction of the vehicular bridge that crosses existing Bullis Road, connecting the northern pool and amenity area with the remainder of the development. The bridge is a single span FIB-36 with spread footing, which reduces vibration and cost, MSE walls with concrete drainage ditch, and splash pads for run off. The bridge utilizes a custom railing with stone veneer, architectural finishes, and custom planters for a high level aesthetic result.		
b.	(1) TITLE AND LOCATION (City and State) CFX, Wekiva Parkway (Orange County, FL)	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2015 CONSTRUCTION (If applicable) 2017	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm		
	Senior Structural Engineer. The Wekiva Parkway (SR 429) is a new alignment, high-speed, limited access facility in northwest Orange County. Segment 203 extends from just north of Ponkan Road to north of Kelly Park Road, a distance of approximately 2.2 miles. The project includes bridge structures over the Lake Victor floodplain, a future access road, and Kelly Park Road. A partial cloverleaf interchange will be provided at Kelly Park Road. The project includes modifications to several local arterials and off-site stormwater management facilities.		
c.	(1) TITLE AND LOCATION (City and State) FDOT, FTE, Suncoast Parkway 2, Section 2 (Citrus County, FL)	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2016 CONSTRUCTION (If applicable) 2020	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm		
	Senior Structural Engineer. This section of the Suncoast Parkway 2 Project is for the design of a new roadway and is located from south of Grover Cleveland Boulevard to north of CR 486, for a distance of approximately 8.5 miles. This new alignment project includes a major intersection and several county road crossings; traversing through heavy wooded areas, borrow pits, and subdivisions. Marybeth was responsible for bridge design and plans production.		
d.	(1) TITLE AND LOCATION (City and State) FDOT District Three, SR 20 over Chipola River Bridge (Calhoun County, FL)	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2010 CONSTRUCTION (If applicable) 2015	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm		
	Senior Structural Engineer. This project involves the design of the replacement for the existing SR 20 bridge over Chipola River in Calhoun County. The existing bridge, constructed in 1941, is structurally deficient and functionally obsolete. The replacement structure will have fewer spans than the existing structure to expedite construction and improve the waterway. The bridge is located in an environmentally sensitive area with two protected species known to exist within the project limits. A permanent shifted alignment for the new bridge, as well as the use of a temporary bridge structure, was investigated for maintenance of traffic during construction.		

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT
(Complete one Section E for each key person.)

12. NAME Sean Carrigan, PE	13. ROLE IN THIS CONTRACT Senior Stormwater Engineer	14. YEARS EXPERIENCE	
		a. TOTAL 15	b. WITH CURRENT FIRM 3
15. FIRM NAME AND LOCATION (City and State) Dewberry Engineers Inc. (Orlando, FL)			
16. EDUCATION (Degree and Specialization) BS/Civil Engineering		17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline) FL Professional Engineer #73041	
18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)			

Sean Carrigan has 15 years of experience in roadway drainage design, including erosion control, environmental permitting, and PD&E studies on various roadway projects for FDOT, as well as municipal government clients throughout Florida. Sean's key expertise is in the design of open and closed drainage collection systems, culverts, and stormwater management facilities, performing hydrological/hydraulic analysis for the design and construction of transportation projects, assisting in the coordination and compiling of environmental permitting applications for the approval by permitting agencies. He is skilled in the utilization of MicroStation, ASAD, ICPR, POND5 Modeling, Hy-8, HEC-RAS, GeoHEC-RAS, Culvert Service Life Estimator, Win-TR55, GeoPak Drainage, Corridor Modeling, BMPTRAINS, Bluebeam and Microsoft Office.

19. RELEVANT PROJECTS			
	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	West Villages Improvement District (Sarasota County, FL)	Ongoing	N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Senior Drainage Engineer. The West Villages Improvement District ("District"), located in the City of North Port and unincorporated Sarasota County, Florida. The District encompasses approximately 8,200 +/- acres of land within the City of North Port and 3,300 +/- acres in unincorporated Sarasota County. The services included earthwork; water and sewer facilities and infrastructure (including water treatment plants and wastewater treatment plants); stormwater management, drainage facilities, and infrastructure; roadways, signalization improvements, and parking facilities.		
b.	FDOT District Five, SR 5 at Matanzas Woods Parkway (Flagler County, FL)	2019	Ongoing
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Senior Drainage Engineer. Through our continuing services contract with District Five, this project involved the design of a multi-lane roundabout at the intersection of SR 5 (US 1) and Matanzas Woods Parkway. The project also included updating pedestrian features at the intersection.		
c.	FDOT District Five, SR A1A at SR 520 Intersection Improvements (Brevard County, FL)	2019	Ongoing
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Senior Drainage Engineer. Through our continuing services contract with District Five, this project improved the intersection for pedestrians and northbound left turning motorists by removing the free flow right turn lanes, realigning the east approach, and extending the northbound dual left turn lanes at the intersection of SR A1A and SR 520 in accordance with PPM Vol I Chapter 25. Also included in the project was the extension of the existing northbound left turn lane at the intersection of SR A1A and Canaveral Plaza Boulevard (Marion Lane).		
d.	FDOT District One, 10th Avenue Complete Streets Feasibility and PD&E Study (Manatee County, FL)	Ongoing	N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Senior Drainage Engineer. This study develops and evaluates complete street improvements along 10th Avenue from Riverside Drive to 17th Street West in the City of Palmetto to enhance multimodal mobility along the corridor. The approximately 1.1-mile study proposes complete street applications such as wider sidewalks, bicycle lanes, multimodal paths, enhanced transit amenities, reconfigured on-street parking, traffic calming measures, streetscaping aesthetics, and stormwater control features.		
e.	FDOT District Five, SR 436 Milling and Resurfacing (Seminole County, FL)	2019	Ongoing
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Senior Drainage Engineer. This project involves adding proposed dual left turn lanes at the intersection of SR 436 and Ronald Reagan Boulevard. The purpose of the project is to improve traffic flow, safety, and mobility at the intersection.

Jose Pereira, PE	Senior Utility Engineer	a. TOTAL	b. WITH CURRENT FIRM
		32	28

15. FIRM NAME AND LOCATION (City and State)

Dewberry Engineers Inc. (Panama City, FL)

16. EDUCATION (Degree and Specialization)

MS/Environmental Engineering; BS/Civil Engineering

17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline)

FL Professional Engineer #82808

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Jose Pereira has 32 years of professional experience in the field of environmental engineering, including the design of water treatment and wastewater collection, pumping, and treatment facilities; pilot-scale and laboratory-scale treatabilities studies; and water and wastewater wet chemistry analysis. He has been actively engaged in the planning, design, construction engineering, and start-up services for numerous municipal wastewater treatment collection, pumping and treatment systems. Many of these facilities have included innovative treatment processes such as nitrification, de-nitrification, bio-selectors, and other biological nutrient removal. To accommodate new development, Jose has planned and designed entire wastewater collection systems that have included interceptor sewers up to 72 inches in diameter, wastewater pumping facilities, and in-system flow equalization storage basins as large as 16 million gallons.

19. RELEVANT PROJECTS

 Surveying

Live Oak Lakes CDD (Twin Lakes Development) is a multi-phased, active adult community consisting of residential units, green open space tracts with community facilities, and a community amenity center located just off of Live Oak Lake. The development is situated just east of Hickory Tree Road and west of Live Oak Lake and Sardine Lake in Osceola County. Phases 1 – 8 consists of a mix of 50', 70' and duplex units totaling 2,023 units.

A 42,000+ square foot amenity clubhouse is currently being constructed alongside the oversized pool and cabana area, which includes a bar for food and beverages. The outdoor rec space is under construction just to the south. This area was designed to include bocci ball, pickle ball, horseshoes, tennis courts, and a half basketball court. It also provides walking trails, a boat dock, and a dock for fishing.

In addition to civil engineering services, we also provided roadway design, bridge design, and signal design within the first phase. We were responsible for the roadway widening design of Hickory Tree Road, where services also included drainage and utility extensions. We extended New Nolte Road from the existing intersection east through the first phase of construction. This 150' ROW is master planned to be a four lane divided major collector road in the future. We also designed and oversaw the construction of the vehicular bridge that crosses existing Bullis Road, connecting the northern pool and amenity area with the remainder of the development. We provided signal design for the New Nolte and Hickory Tree Road Intersection, which also includes golf cart paths and golf cart path crossings at the updated intersection.

Utilities have been master designed for the build out of the development, which will include city master transmission mains for the 24" potable water main and 24" reclaim main, along with five sanitary lift stations to service the phases of the development as they are constructed. Phase 1 of the project utilizes two sanitary lift stations, a portion of the 24" potable and reclaim mains. The first lift station is located on the west side of Hickory Tree Road. The second lift station is located along the extension of Nolte Road east of Hickory Tree Road. This lift station has been

designed to accept additional flows from future phases of this development. This lift station pumps into a force main down the Nolte Road extension and connects to the existing 20" force main located within the Hickory Tree ROW.

FIRM QUALIFICATIONS

Dewberry is a leading, multi-disciplined firm with a proven history of providing professional services to a wide variety of public- and private-sector clients. Established in 1956, Dewberry is headquartered in Fairfax, Virginia, with 50 locations and over 2,000 professionals nationwide, including our local office in Orlando. Recognized for combining unsurpassed commitment to client service with deep subject matter expertise, Dewberry is dedicated to solving clients' most complex challenges and transforming their communities.

Dewberry's Florida operation is backed by the resources and stability of a national firm and specializes in site/civil, environmental, utility infrastructure, transportation engineering, surveying, architecture, and land development services. Dewberry has 15 office locations and over 300 employees in Florida, bringing expertise, qualifications, and resources to cities and counties throughout the state. Dewberry supports large and small projects in the following primary service areas:

- Alternative delivery
- Architecture
- Building engineering
- Disaster response and emergency management
- Energy services
- Environmental services
- Geospatial services
- Mechanical, electrical, and plumbing services
- Program management
- Site/civil services
- Surveying/mapping
- Sustainability
- Transportation
- Water/wastewater/reclaimed water services

We put clients first, we build strong and lasting relationships to become trusted advisors to our clients. Personal commitment to our clients and standing behind our work are central principles of the "Dewberry Way."

Relevant Experience

The absolute best predictor of future success is past performance and we have a lot of experience in all areas required for this contract. Whether we are providing professional design engineering services or as a previous District Engineer, our track record speaks for itself.

**DEWBERRY HAS
300+ EMPLOYEES
IN FLORIDA**

During past years in business, **no other Central Florida firm has been more involved in Florida's explosive development.** This is demonstrated by the work we have performed for hundreds of clients over four decades. We have developed a unique general approach to land development projects. Our approach is tried-and-true, and it has proven, time-and-time-again, to reduce the coordination efforts for our clients and, importantly, it produces successful projects.

Dewberry has also developed a "Land Development Process" Manual. All our professional staff members are required to know our quality procedures and to stay abreast of regulatory changes. The purpose of this manual is to describe the method and process in which Dewberry provides planning, design and construction related services for Land Development projects. This process minimizes the opportunity for missed deadlines, decreases errors and omissions on the plans, plats, calculations and permits, and maximizes the opportunity to produce high quality, buildable projects, resulting in satisfied clients and a positive company reputation in the engineering community.

We have a defined, workable Quality Control Plan. Every submittal is checked by an independent reviewer using our written quality control procedures. These procedures include Sufficiency Checklists to ensure that the documents are complete. The quality control checks are scheduled within the project master schedule to ensure that time is allocated to make revisions. All of our firm's staff use Quality Control Manuals to ensure that the project is being prepared correctly the first time. All of this detail means that our clients can be confident that they are getting the best possible product from Dewberry.

The following CDD projects are representative of our relevant project experience:

- Baytree CDD, Brevard County
- Cascades at Groveland CDD, Lake County

Project Approach

We have prepared an organizational approach to fit the specific categories of the organization and operations to support both large and small engineering projects. Through our many years of serving as District Engineer, we've been successful at becoming an extension of the CDD's Project Management group, with the ability to understand project needs and proposing only on what is necessary to complete the task at hand. Our management team is committed to a quality product that is consistent with East 547 CDD's policies and procedures.

Serving as District Engineer is **Rey Malavé, PE**. Rey has 41 years of experience in civil engineering and a diversified background in the design and permitting of infrastructure systems, including public facilities, utility systems, office

buildings, commercial developments, recreational facilities, and industrial developments. He has extensive experience with permitting agencies, including FDEP, FDOT, Florida Water Management Districts, and other local agencies. He has served as the District Engineer for over 25 CDDs and Improvement Districts in Florida.

Transportation Services

Dewberry has provided roadway and bridge design services to numerous governmental agencies throughout Florida for over 30 years. Our projects have ranged from minor intersection improvements and milling and resurfacing of existing roadways to capacity improvements and complex, multilevel interchanges. The extensive experience of our staff in the design, preparation of construction documents and post design services for roadways, bridges, and associated systems provides East 547 with the expertise to handle any type of transportation related assignment. Our transportation design staff, coupled with the survey, drainage, environmental, and permitting capabilities, allows us to efficiently complete any assignment, as all disciplines required are available in-house.

Traffic design may include one or more of the following items, dependent upon a specific project: signing design, pavement marking design, signal warrant analysis, signalization design, lighting justification, lighting design and traffic studies. We have extensive experience in these phases of the project and we are qualified to perform all aspects of traffic engineering.

Engineering services related to structural design may be required for bridge widenings, bridge rail replacements, box culvert extensions, retaining walls, sheet piling, overhead sign structures, multi-post guide signs, signal poles, mast arms light poles and foundations for signs, signal poles and lighting. We have an experienced in-house staff to provide these services.

Water/Wastewater Services

Our team can provide both utility analyses of existing master systems, preparation and updates to master plans, as well as prepare utility construction plans. Dewberry can analyze the existing utility systems and make recommendations for upgrades or replacement. We have designed numerous utility collection and transmission facilities, gravity sewers, force mains, reuse water and potable water systems. We have also designed numerous wastewater and water pump stations. We also have experience in the transformation of septic tank systems by the installation of new sewer systems.

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Stormwater Management Services

Our integrated stormwater management services range from large basin studies to the design of collection systems. Our team has performed analysis on various projects throughout Florida. We have designed culvert replacements to extensions on numerous roadway projects, ranging from two-lane rural widening to multi-lane expressways.

Drainage design and permitting are critical parts of any project. We will provide assistance to the District in coordination with MS4 support, total maximum daily loads, numeric nutrient criteria support, drainage, erosion and sediment control, stormwater basin modeling, assessment and evaluation drainage systems, design and construction plans for stormwater management systems and coordination with state and federal agencies.

Assumptions and/or omissions in this area can cause significant delays in the project schedule, increase costs during construction and even lead to possible litigation against the District. We are experienced in identifying, analyzing, and addressing drainage impacts associated with a variety of project types. Our drainage staff is knowledgeable of Water Management District criteria and we are adept at developing creative and innovative solutions to drainage problems. We also have experience preparing flood studies with FEMA. At the heart of our approach is a thorough document review of the existing plans, USGS Quadrangle Maps, USDA Soil Survey, FEMA Flood Insurance Maps and aerial photographs. With this data in hand, we will perform a field review during the pre-scope meeting, identify all drainage and permitting issues, and discuss possible drainage solutions with the District. Existing drainage patterns, ponding concerns and erosion problems will be documented. We will contact the District's Maintenance Engineer to discuss any concerns regarding the project area.

Survey and Mapping Services

Dewberry has provided continuing surveying services for many counties and municipalities throughout the State of Florida. Our large in-house survey staff, with numerous crews out of our Orlando office, are well-versed in the rigors of on-call assignments and the immediate response time they require. We utilize state-of-the-art equipment to provide cost effective surveying, ROW mapping, utility designation, and subsurface utility engineering (SUE) for roadway, municipal, and civil development projects. We have extensive experience in boundary surveys, topographic design surveys, tree surveys, inventory surveys, and underground utility mapping. Our survey team has a dedicated staff of photogrammetrists who specialize in aerial photogrammetry, fixed and aerial LiDAR, and GIS mapping.

Our services for surveying and mapping may include: as-built surveys, boundary surveys, eminent domain surveys, GIS, legal description preparation, plat preparation, property sketches, ROW mapping, SUE, topographic surveys, and utility surveys.

SUE technology combines geophysics, surveying, and civil engineering to better locate underground utilities. This service helps our clients avoid costly utility conflicts and construction delays caused by inaccurately plotted utilities. Our 3-D Laser Scanning equipment allows our survey crews to accurately collect field data comprehensively and, most importantly, safely. Dewberry is one of a select few firms in the state to have this technology.

Environmental/Permitting Services

From determining wetland lines to the understanding of current rules and regulations for water management districts, our staff has full understanding and experience in providing these services for cities and other governmental agencies. We have obtained permits with the various local, state and federal agencies for a variety of projects. We understand how to prepare permit applications, work closely with the agencies and obtain permits for your projects. Dewberry will track the permit status for each agency, keep the District informed of the progress of all permits and respond promptly to all requests for additional information.

As part of our efforts for East 547 CDD, we will assist in determining the permits needed for each development project along with the anticipated schedules for obtaining each permit. Additionally, we have experience in permitting with governmental agencies such as the Water Management Districts, FDEP, Florida Fish and Wildlife Conservation Commission (FFWCC), U.S. Army Corps of Engineers (USACE), and FDOT. We have staff that consists of both engineers and environmental scientists, many of which have worked previously for various permitting agencies.

Landscape Architecture/Planning

Dewberry has extensive landscape architecture experience throughout Florida. Our project experience includes residential, retail office, mixed-use, streetscapes and recreational uses as well as hardscape and irrigation design. Our hardscape designs have included corporate plazas, streetscapes, fountains, amenity areas for multi-family projects, and urban plazas.

Our planning services to East 547 CDD will include presentations to CDD Commissioners and public meetings, where we would provide assistance to the District for the understanding of technical issues,

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

proposed developments, projected roadway designs, possible ROW changes, and to provide a professional and expert opinion on issues that may be needed by the District. Dewberry can assist the District with the following planning services:

- Comprehensive planning
- Review of comprehensive plan amendments
- Preparing land development regulations, including form based codes, GIS and mapping services
- Transportation planning
- Revitalization/redevelopment planning

Construction Administration/CEI

We have continually provided construction administration services to our clients on most of the projects we have designed. Dewberry understands the importance of establishing and maintaining budgets. As a project is constructed, it is imperative that our team monitor the project budget and keep the District consistently informed. We have worked with many cities and counties on providing all construction services, including the assistance in the preparation of bid documents, prebid meetings, pre-construction meetings, construction administration, site observation, pay application review and approvals. We also provide shop drawing reviews and approvals per construction documents. We will provide assistance to District staff in the administration of construction contracts. Our team is currently providing these services to many municipalities across the state of Florida.

Our Construction Administration staff is prepared to support the District in various construction management related tasks. We routinely perform these services for both our public and private clients. Our services include:

- Construction Inspection
- Shop Drawing Review
- Pay Application Verification
- Construction Scheduling
- Utility Company Coordination
- Final Regulatory Acceptance
- Record Drawings
- Project Value Engineering
- Bid Document Preparation
- Bid Summarization and Analysis
- Contract Preparation

Task Initiation

Our Project Approach will vary due to the type of assignment; however, the important first steps in task initiation involve data gathering and scope development.

Data Gathering

This phase consists of defining the project objectives, identifying elements involved in the task, conducting a field review meeting (if required) and developing a detailed scope of services.

This phase will begin once a specific task or project has been identified by the District. Once identified, we will coordinate with the District to obtain all existing information. This data collection effort is very important in that it provides us valuable information prior to developing the scope of services.

If applicable or desired, an on-site field review meeting will be held jointly with the District and other appropriate agencies to discuss the task objectives and identify areas of concern. Discussions regarding the projects background, scope requirements, project constraints and other relevant issues will be held to reach an understanding of the overall project goals. Based on the data collection effort and the initial on-site field meeting, the specific plan elements required for the task will be identified and agreed to with the District prior to developing a scope of services.

Scope Development

A detailed scope of services, fee estimate, and schedule for each task will be developed based on the data gathering efforts and discussions. This scope and work effort will be heavily influenced by the quality of the data collected and the specific needs of each task. Man-hour estimates will be provided for each discipline involved. The scope and work effort will be prepared and negotiated quickly, so as not to affect the schedule.

Other Considerations

COST CONTROL

We constantly review our designs and look for ways to save our clients time and money. We exercise common sense engineering to provide practical design solutions and not merely based on the way things have always been done in the past.

PROJECT COSTS

We understand the financial constraints that clients face, due to the budget cuts and rising construction and ROW costs. We will review all designs, prepared by Dewberry or others, for cost savings measures that will

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

not affect the intention or safety of the project. Our recent experience has shown that minor changes in the design can save materials, and reduce or avoid costly business damage claims and/or ROW impacts. Another key to cost controls is to estimate costs early in the design process and as the design evolves, not just near the end of the design process. Early cost estimating allows for more options to be explored to keep projects within budget or to notify the District that budgets may need to be adjusted.

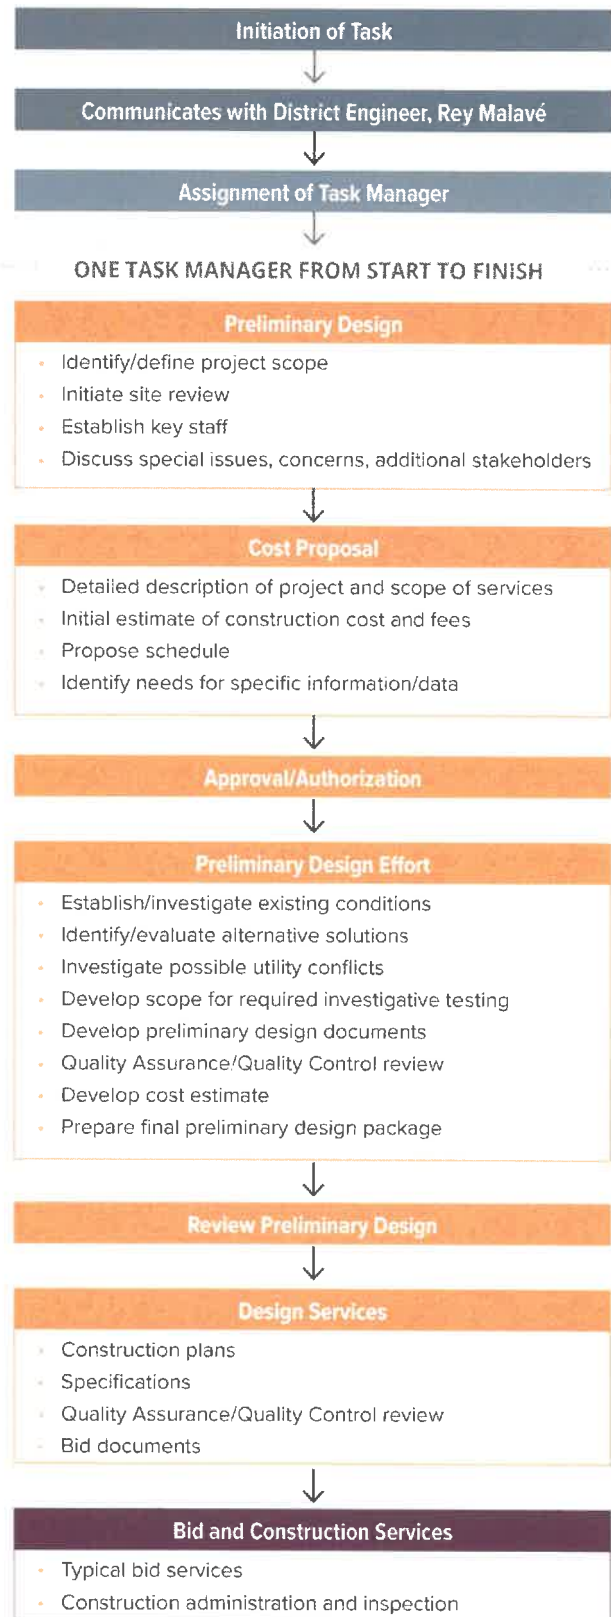

PROJECT SCHEDULE

The importance of maintaining the project schedule through the design or review process cannot be overstated. Dewberry is committed to developing and adhering to the project schedule for each assignment. This is important to us because if we fail to successfully complete any assignment on time, our ability to obtain additional assignments with East 547 will be limited. Furthermore, we will maintain an overall schedule of projects to help with internal and external coordination. We fully understand what is required to keep a project on schedule. The following proven actions will be used by our team to control the project schedule:

- **Experienced Client Manager:** Our District Engineer, Rey, routinely manages multi-discipline projects, where coordination is critical. Dewberry's wide range of in-house services ensures close coordination between each discipline, enabling us to direct our staffing resources.
- **Weekly Team Meetings:** Coordination will be ensured through weekly team meetings. These meetings will be used to track progress on individual tasks and as a planning tool.
- **Monthly Progress Reports:** Monthly progress reports will be supplied to East 547. These reports will be an effective snapshot of the status of each assignment and will be used to identify any potential schedule issues.
- **Being Proactive:** While managing the schedule, we will be proactive (vs. reactive) on all tasks. Emphasis will be placed on the activity start dates to ensure timely completion.

NPDES MS4 PROGRAM SUPPORT

Having completed numerous programs for other cities and counties, we understand the MS4 Program and have the staff that will assist the CDD in updates, compliance questions and recommendations as needed in the ongoing program.

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY ATTACH ADDITIONAL SHEETS AS NEEDED

INDEPENDENT PEER REVIEW

An independent peer review is performed for each phase submittal. This review is performed by senior level staff not directly involved in the project and may be located in a separate office.

CONSTRUCTABILITY/BIDABILITY REVIEW

Prior to the 90 and 100 percent submittals, the plans will be subjected to a constructability/bidability review. This review will be performed by our in-house construction administrators.

Quality Assurance/Quality Control

Dewberry understands the value of repeat business. Our commitment to personalized client service is such that we guarantee we will respond to each client's needs promptly and effectively. From the beginning, we recognized that functional efficiency and technical excellence must be provided as a matter of course in engineering design. Each project produced by our firm reflects this corporate commitment to excellence and our insurance is our Quality Control Plan. Our Quality Assurance Plan and procedures are based on the philosophies that:

- **Plan:** Quality is controlled by adequate planning, coordination, supervision and technical direction, proper definition of job requirements and procedures, and the involvement of experienced professionals.
- **Do:** Quality is achieved by individuals performing work functions carefully and "doing it right the first time".
- **Check:** Quality is verified through checking, reviewing, and supervising work activities, with documentation by objective individuals who were not directly responsible for performing the initial work.
- **Act:** Quality is ensured by having a manager perform quality assurance functions that involve monitoring and close review of not only the work but also the procedures used in performing the work.

Asset Management

Dewberry is a leader in developing comprehensive, strategic asset management programs for public infrastructure. We typically utilize and coordinate with IT, GIS, mapping, and other appropriate technologies. Our asset management services are part of an approach for helping clients build dynamic, sustainable organizations that are capable of and committed to delivering the highest possible level of value and service to their customers.

Our team brings a level of credibility to the process that cannot be gained from a strict management-only consulting approach. Over the coming future years, aging infrastructure will require an increasing higher portion of an organization's Capital and Renewal & Replacement (R&R) dollars. Planning today must focus on risk based assessments, including targeted condition assessment to quantify and prioritize limited R&R and capital dollars. The Dewberry Team is comprised of subject matter experts that champion this innovative approach.

SECTION 3: Qualifications and Experience

QUALIFICATIONS AND EXPERIENCE

Ability and Adequacy of Professional Personnel

We have carefully selected our team of professionals and technical experts to match our experience and expertise with the qualifications required. Our firm has a varied array of experience, disciplines, and available resources available to provide the required services to the East 547 CDD. Our team can provide engineering design, planning management, technical, and administrative services as requested by East 547 CDD and will make a commitment to prioritize the CDD's needs.

Our District Engineer, **Rey Malavé, PE**, Associate Vice President at Dewberry, has 41 years of civil engineering experience for both public and private clients and has served as the project manager for numerous private commercial and residential developments across Florida. This includes Dowden West CDD in Orlando; Live Oak Lake CDD (Twin Lakes Development) in Osceola County; Cascades at Groveland CDD in Groveland; Baytree CDD in Brevard County; and the Lakewood Ranch CDDs in Sarasota and Manatee Counties.

Rey has a proven track record for meeting budgets and schedules on complex and short time frame design projects. He is known for his ability to quickly adapt to changing schedules, design parameters, and client needs. Rey's diversified background in engineering design includes all aspects of land development engineering including master drainage, stormwater management design, site grading, water and reclaim distribution and sewer collection/transmission systems, as well as, project reviews for permitting agencies.

Serving as Assistant District Engineer is **Peter Armans, PE**. He has 12 years of experience in planning, design, rehabilitation, condition assessment, and construction management of water distribution systems, sewer conveyance systems, and stormwater management systems. He provides oversight and review for various inspection technologies and methodologies and has in-depth experience with scoping, budgeting, advertising, and negotiating construction activities and contracts.

Our project management and organizational

Why Dewberry?

District Engineer for 25+ CDDs across Florida

Local, experienced District Engineer ready to work for you

Comprehensive understanding of CDD's infrastructure and operational needs

300+ employees in 15 offices within Florida, including a local office in Orlando

Cohesive group of professionals integrated across service areas to leverage success for our clients

60+ years helping clients build and shape communities

structure within each key service areas demonstrates our thorough understanding of the scope of this contract and our desire to meet the objectives of the project assignments.

Our senior experienced professionals are all well versed in addressing their particular specialty area and have associates working under their direction to efficiently tackle any assignment from East 547 CDD. This organizational structure has a long history of success as a model that Dewberry has implemented across the country for similar CDDs and public agencies.

We will continue to develop and apply innovative concepts and techniques to effectively and efficiently design and manage all tasks. It is important to note that Dewberry is a full-service civil engineering firm that can meet your needs for any project – large or small. Dewberry can react quickly to your requests and provide all technical support under one roof.

For more information on our project management

FIGURE 3.1 We build strong and lasting relationships with our clients. The caliber of our people and combining unsurpassed client service with deep subject matter expertise is what sets us apart. We operate with the highest level of ethics and transparency. Our integrity—and that of our people—is second to none. Personal commitment to our clients and standing behind our work are two central tenants of our cultural statement, “Dewberry at Work.”

team, we have provided resumes in our Standard Form 330 included in **Section 1: Standard Form 330** of our proposal.

Certified Minority Business

Dewberry Engineers Inc. is not a certified minority business.

Willingness to Meet Time and Budget Requirements

Dewberry recognizes the importance of maintaining project budgets. We have a long history of providing on-schedule services and projects that fit within the client’s budget. Over 85% of our work is from repeat clients ... a testament to our ability to work within a budget and schedule.

The following proven actions will be used by our team to control the project budget:

- **Experienced Staff:** The most effective means of meeting the design budget and schedule is by using experienced staff with the knowledge, training, and equipment necessary to perform their assigned tasks. Dewberry’s Project Team has these attributes.
- **Construction Budget Controls:** We are acutely aware of the volatile construction materials market and its impact on construction budgets. As such, we periodically update our cost data to ensure that the most current unit prices are being used for the construction cost estimates.
- **Project Schedule:** One way we keep costs in line is by developing and maintaining a schedule for each task. We build a design quality control checking date into every schedule prior to the submittal date for all project deliverables. We have found that focusing on the submittal date often results in rushed or incomplete quality control checks of the plans. Therefore, we will schedule a quality check date at least two weeks prior to the submittal date to make sure that the process is completed. This also allows our District Engineer and team to focus on the quality control date, resulting in plenty of time for the process to work and thus further committing to the project’s budget.

Past Experience and Performance

For more than 45 years, our land development professionals have combined an unsurpassed commitment to serving Florida developers with a deep subject matter expertise in a broad spectrum of professional services. We have served as District Engineer for over 25 CDDs across Florida, varying in size from 200 acres to close to 10,000 acres. We are experienced in CDDs from the creation to the continued operations.

Our clients benefit from our local experience and presence, and our familiarity with entitlement issues, plan development and review processes, and local codes and ordinances. We offer creative and cost-effective designs that transform communities.

We provide our residential clients with a range of services that include land planning, entitlement approval, infrastructure design and permitting, surveying, stormwater modeling, environmental review and permitting, sustainable design, landscape architecture, and cost and schedule estimating. We envision and help realize

Geographic Location

With 15 office locations and over 300 employees in Florida, we bring expertise, qualifications, and resources to clients throughout the State.

Located in our Orlando office, Rey and Peter will be responsive, make frequent visits, and be readily available for meetings, presentations, or site visits. Additionally, our project team includes local, Orlando staff members proposed for this contract, which leads all components of our assignments to be developed concurrently by a cohesive team.

By utilizing our extensive presence within Central Florida, our approach to the District's projects will combine our understanding of the various project assignments with our experience in identifying the District's needs to develop the appropriate project team for each assignment. This allows us to minimize the time needed from project request to "boots on the ground" activity.

In addition, our Project Team is supported by nationally-recognized subject matter experts and dedicated quality control staff who have the required capacity to provide the array of required services to East 547. This depth of organization permits us to call upon specialists and a broad base of support to satisfy diverse or manpower intensive tasks.

Current and Projected Workloads

Dewberry has an excellent track record of meeting time and budget requirements on the projects we have highlighted in this response and will meet this goal with East 547 CDD. **We are fully available for this contract!**

Our team, supported by a strong in-house team of infrastructure design specialists, planners, surveyors, environmental scientists, ROW mappers, roadway engineers, MOT engineers, and construction inspection personnel, has the capacity to address all of the District's needs throughout the term of this contract.

Due to the capacity and availability of our proposed staff, we can commit to the District our dedicated team members for these important projects.

Volume of Work Previously Awarded to Consultant by District

Although Dewberry has not worked for the East 547 CDD, we have extensive working experience with numerous CDDs. As demonstrated throughout our proposal, we currently serve as the District Engineer for over 25 CDDs in Florida, which allows us to provide East 547 with the unique experience, familiarity, and understanding of the type of services that will be requested.

FORMS OF REQUISITIONS

**EAST 547 COMMUNITY DEVELOPMENT DISTRICT
SPECIAL ASSESSMENT BONDS, SERIES 2021
(ASSESSMENT AREA ONE PROJECT)
(Acquisition and Construction)**

The undersigned, a Responsible Officer of the East 547 Community Development District (the "District") hereby submits the following requisition for disbursement under and pursuant to the terms of the Master Trust Indenture by and between the District and U.S. Bank National Association, as trustee (the "Trustee"), dated as of June 1, 2021 as supplemented by that certain First Supplemental Trust Indenture dated as of June 1, 2021 (collectively, the "Assessment Area One Indenture") (all capitalized terms used herein shall have the meaning ascribed to such term in the Assessment Area One Indenture):

- (A) Requisition Number: 30
- (B) Identify Acquisition Agreement, if applicable;
- (C) Name of Payee pursuant to Acquisition Agreement: Blue Ox Enterprises LLC
- (D) Amount Payable: \$161,658.09
- (E) Purpose for which paid or incurred (refer also to specific contract if amount is due and payable pursuant to a contract involving progress payments): Pay Application # 14 period thru 11/25/21
- (F) Fund or Account and subaccount, if any, from which disbursement to be made:

Assessment Area One Acquisition and Construction Account of the Acquisition and Construction Fund.

The undersigned hereby certifies that:

- 1. obligations in the stated amount set forth above have been incurred by the District,
- 2. each disbursement set forth above is a proper charge against the Assessment Area One Acquisition and Construction Account; and
- 3. each disbursement set forth above was incurred in connection with the Costs of the Assessment Area One Project.

The undersigned hereby further certifies that there has not been filed with or served upon the District notice of any lien, right to lien, or attachment upon, or claim affecting the right to receive payment of, any of the moneys payable to the Payee set forth above, which has not been released or will not be released simultaneously with the payment hereof.

The undersigned hereby further certifies that such requisition contains no item representing payment on account of any retained percentage which the District is at the date of such certificate entitled to retain.

Attached hereto or on file with the District are copies of the invoice(s) or applicable contracts from the vendor of the property acquired or the services rendered, as well as applicable conveyance instruments (e.g. deed(s), bill(s) of sale, easement(s), etc.) with respect to which disbursement is hereby requested.

The undersigned hereby certifies that:

- 1. obligations in the stated amount set forth above have been incurred by the District,
- 2. each disbursement set forth above is a proper charge against the Assessment Area One Acquisition and Construction Account; and
- 3. each disbursement set forth above was incurred in connection with the Costs of the Assessment Area One Project.

The undersigned hereby further certifies that there has not been filed with or served upon the District notice of any lien, right to lien, or attachment upon, or claim affecting the right to

receive payment of, any of the moneys payable to the Payee set forth above, which has not been released or will not be released simultaneously with the payment hereof.

The undersigned hereby further certifies that such requisition contains no item representing payment on account of any retained percentage which the District is at the date of such certificate entitled to retain.

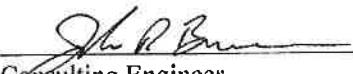

Attached hereto or on file with the District are copies of the invoice(s) or applicable contracts from the vendor of the property acquired or the services rendered, as well as applicable conveyance instruments (e.g. deed(s), bill(s) of sale, easement(s), etc.) with respect to which disbursement is hereby requested.
